

Energy Drawing Methodology© Sessions

Movement of each line matters. If this is upwards, downwards, irregular, serpentine or straight lines, they reflect a present Energetical Moment of a drawer.

One creates a line and line speaks back. When one listens to a line may realise that this is an inner voice speaking back. Movement of a line, its colour, shape and dynamic-influences the body.

So, as long as one draws common, well known lines, which are in his or her library since „always”, one may hear own voice and feel familiar energy of personality.

When a practitioner start to draw from a place of unknown, curiosity and courage, lines start to change. They emerge from a place which was unattained, so far. This moment is a place of opening towards Great Drawer within, which speaks and radiates energy which is brand new, like a fresh morning air of Spring!

Energy Drawing Methodology© allows to shift and transform inner reality. It guides, one line after another, to a place where a drawer may see oneself from a completely different perspective, over and over again. This is an insightful Path of Self- Discovery and Expansion. Which has no end and no beginning. This Methodology allows to tune into a Great Stream of Life, from a place where you are right now.

New Lines keep coming, endlessly. This is a direct mirror of a Continuum of Life Creation.

Participants of the classes very often mention gaining a new perspective on *self*. Which allows insightful thoughts or vision to appear inwardly. Surprising, unexpected with a feeling of tranquillity, confidence and integrity- this is how Energy Drawing Methodology© is received by a drawers.

Order a Drawing as an Energy Transmission©

Energy Drawing Methodology was introduced to me by the group of Light Beings, The White Light Creators, in 2015r. They come through a process of Energy Drawing, radiating Nonmeasureable, Vibrant, Lightful and Loving Energy.

Drawings are a bridge between Matter and Spirit. They connect those two different Realities, bringing to this Earth Energy of Light, Wisdom and Transformation. Wherever they are, they support and uplift frequency of a place and people.

Those for whom I draw, experience deeper connection to Inner Reality of Soul and Spirit. Drawings speak and communicate with Their receivers and with a surrounding the are in.

Experience of Energy Drawing feels for me as Unreal, Magical and the most Fulfilling Experience. Each time when I Draw, for myslef or for others, I am Honoured and Grateful for this Path of Life. For me it is a feeling of *being at Home*.

Process of Energy Drawing is an Intutive way of Allowing Energies to Speak and Communicate. They Manifest Uniqe and Special Message for it's receiver.

Each order is, literally- an Individual Universe, that comes to me and through me, to materialize Itslef on a paper.

Formats of Drawings start from A4 up to A0.

I also draw on a walls, pieces of wood- those are special orders.

My regular medium is paper and mixed media when it comes to colours. Although, my favoruite and mostly used one is, ink.

Prices for Individual drawings begin with 50 Euro, up to 900 Euro when it comes to A0 format.

Teacher, Founder and Author- Kaja Kochańska about *Herself*.

I am entirely dedicated to the Path inner Exploration and Discovery. In order to consciously reclaim my boundless Energy, as Soul and Spirit.

My curious, persistent and resilient Nature have been guiding me towards countless numbers of different life experiences.

In this wide variety, I have been consistently Growing. Finding out about myself, over and over again. I was losing myself in order to rebirth, one time after another. I had let go of aspects of myself which were holding me back from my Authenticity, Truth and Wisdom. I am devoted to My inner Light as my guiding Force and the best Life Companion.

This endless process of Inner Inquiry is my Specialty. It is my Life Path, Inimitable, Delightful and Challenging.

I am an ongoing Nature of Spirit in a humble, unique and beautiful human form, as Kaja. I learned to find my Comfort among external chaos. I managed to Ease myself when roads get rocky. I turned into a Lighthouse for myself.

I became a Heart-Centered Practitioner of Life. Where titles, numbers and other external conditions no longer justify whether I am ready or worthy.

I Joyfully share my Wisdom, Intuitive Insights and Knowledge with others. Space, which I hold and share with you, is Safe, Peaceful and Respectful. Here you can find Loving, Cozy and Healing Energy of *being at home*.
